DRIVING PLEASURE IN FULL ELECTRIC

New Citroën ë-Berlingo Electric is distinguished by its incomparable driving experience with instantly available torque, a total absence of vibration, noise, jolts and CO2 emissions.

In addition to real savings in use, New ë-Berlingo Electric offers great freedom in increasingly regulated urban environments, but also rural areas, with a range of up to 280 km*.

URE

ERTRAIN

** WLTP test cycle. Range dependent on use and driving style.*

*** The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power. Between 15-80% of the vehicle's charge in 30 minutes from a 100kW charger.*

ELECTRIC POWER

The i-Toggle controls the drive mode

With New Citroën ë-Berlingo 100% electric, every journey becomes a serene, relaxing experience for everyone on board. On-demand torque ensures smooth acceleration, with no sudden jolts or vibrations whilst driving. The electric motor provides a power output of 100kW (the equivalent of 136 hp) at speeds up to 130km/h.

Three driving modes are available to suit the situation: 'Eco' optimises energy consumption by limiting torque and power. 'Normal' provides the best compromise between range and dynamic performance. Finally, 'Power' helps maintain the vehicle's performance when fully loaded.

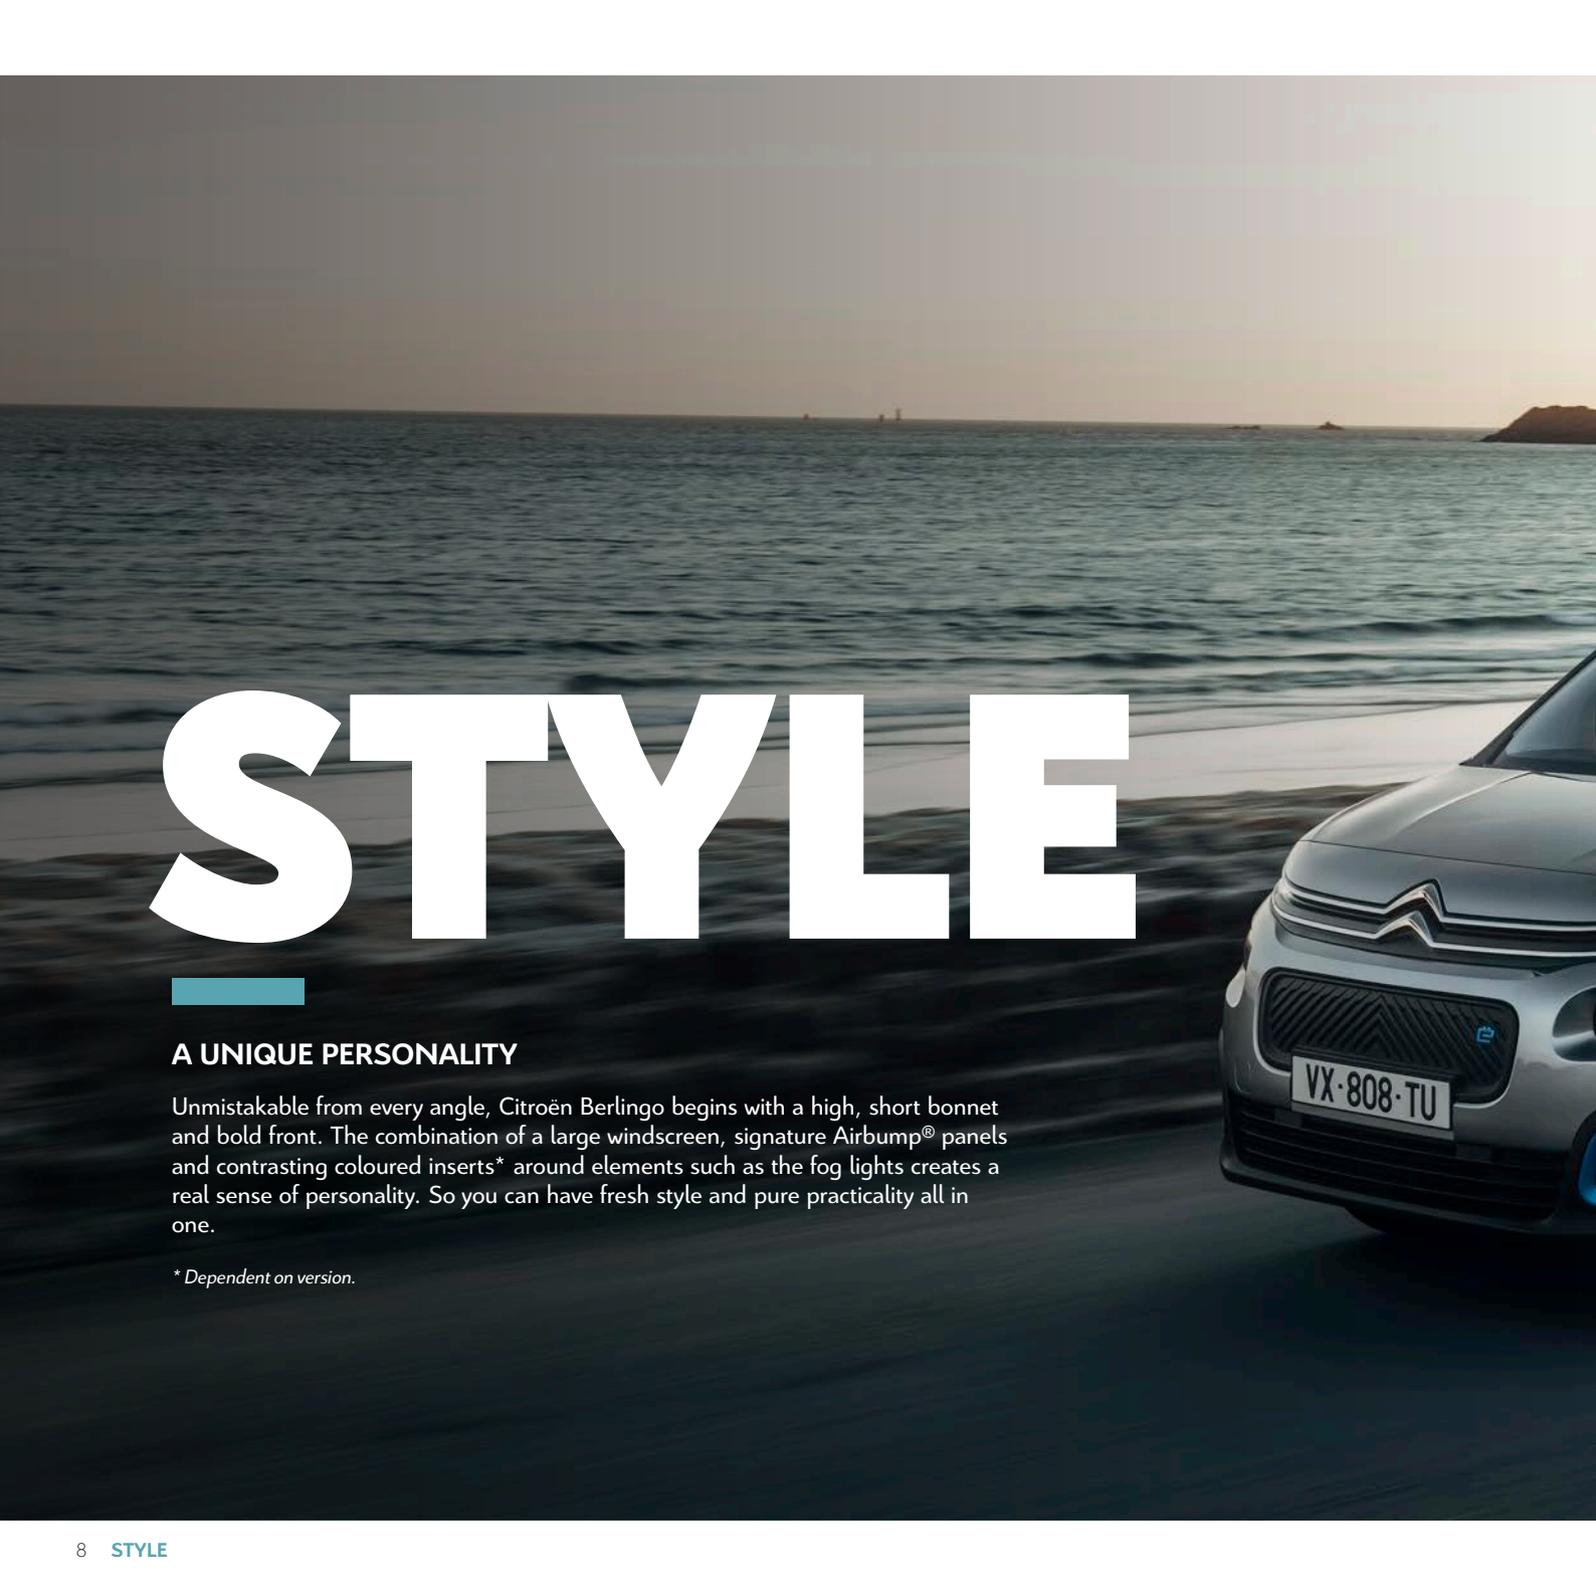

An i-Toggle switch on the centre console selects the Drive, Neutral & Reverse gearbox functions.

In addition, regenerative braking technology is used to collect energy produced during braking or deceleration, further extending the range of the battery.

BATTERY WARRANTIED FOR 8 YEARS / 160,000 KILOMETRES FOR 70% OF ITS CAPACITY.

STYLE

A UNIQUE PERSONALITY

Unmistakable from every angle, Citroën Berlingo begins with a high, short bonnet and bold front. The combination of a large windscreen, signature Airbump® panels and contrasting coloured inserts* around elements such as the fog lights creates a real sense of personality. So you can have fresh style and pure practicality all in one.

** Dependent on version.*

MWB

2 SIZES
TO FIT ALL

LWB

4,40 M

For ultimate versatility and choice, Citroën ë-Berlingo is now available in two lengths. There's the 5 seat MWB and LWB version. Both combine great proportions, well-balanced lines and real all-day comfort.

MWB

5 PLACES

UP TO

Two lengths with room for up to 5 people means family and friends are always welcome...

4,75 M

LWB

5 PLACES

The LWB is 35cm longer than the MWB, thanks to a lengthened wheelbase and rear design. LWB versions now feature ultimate passenger room or serious load space – it's up to you.

THE PARTNER FOR ALL OF YOUR BIG OR SMALL ADVENTURES

VERSATILE, PRACTICAL AND SPACIOUS

New Citroën ë-Berlingo Electric is adapted to families who enjoy sports activities, such as cycling or hiking, and outdoor leisure activities. Its silhouette topped with roof bars* emphasises its modern and dynamic profile.

** Dependent on version.*

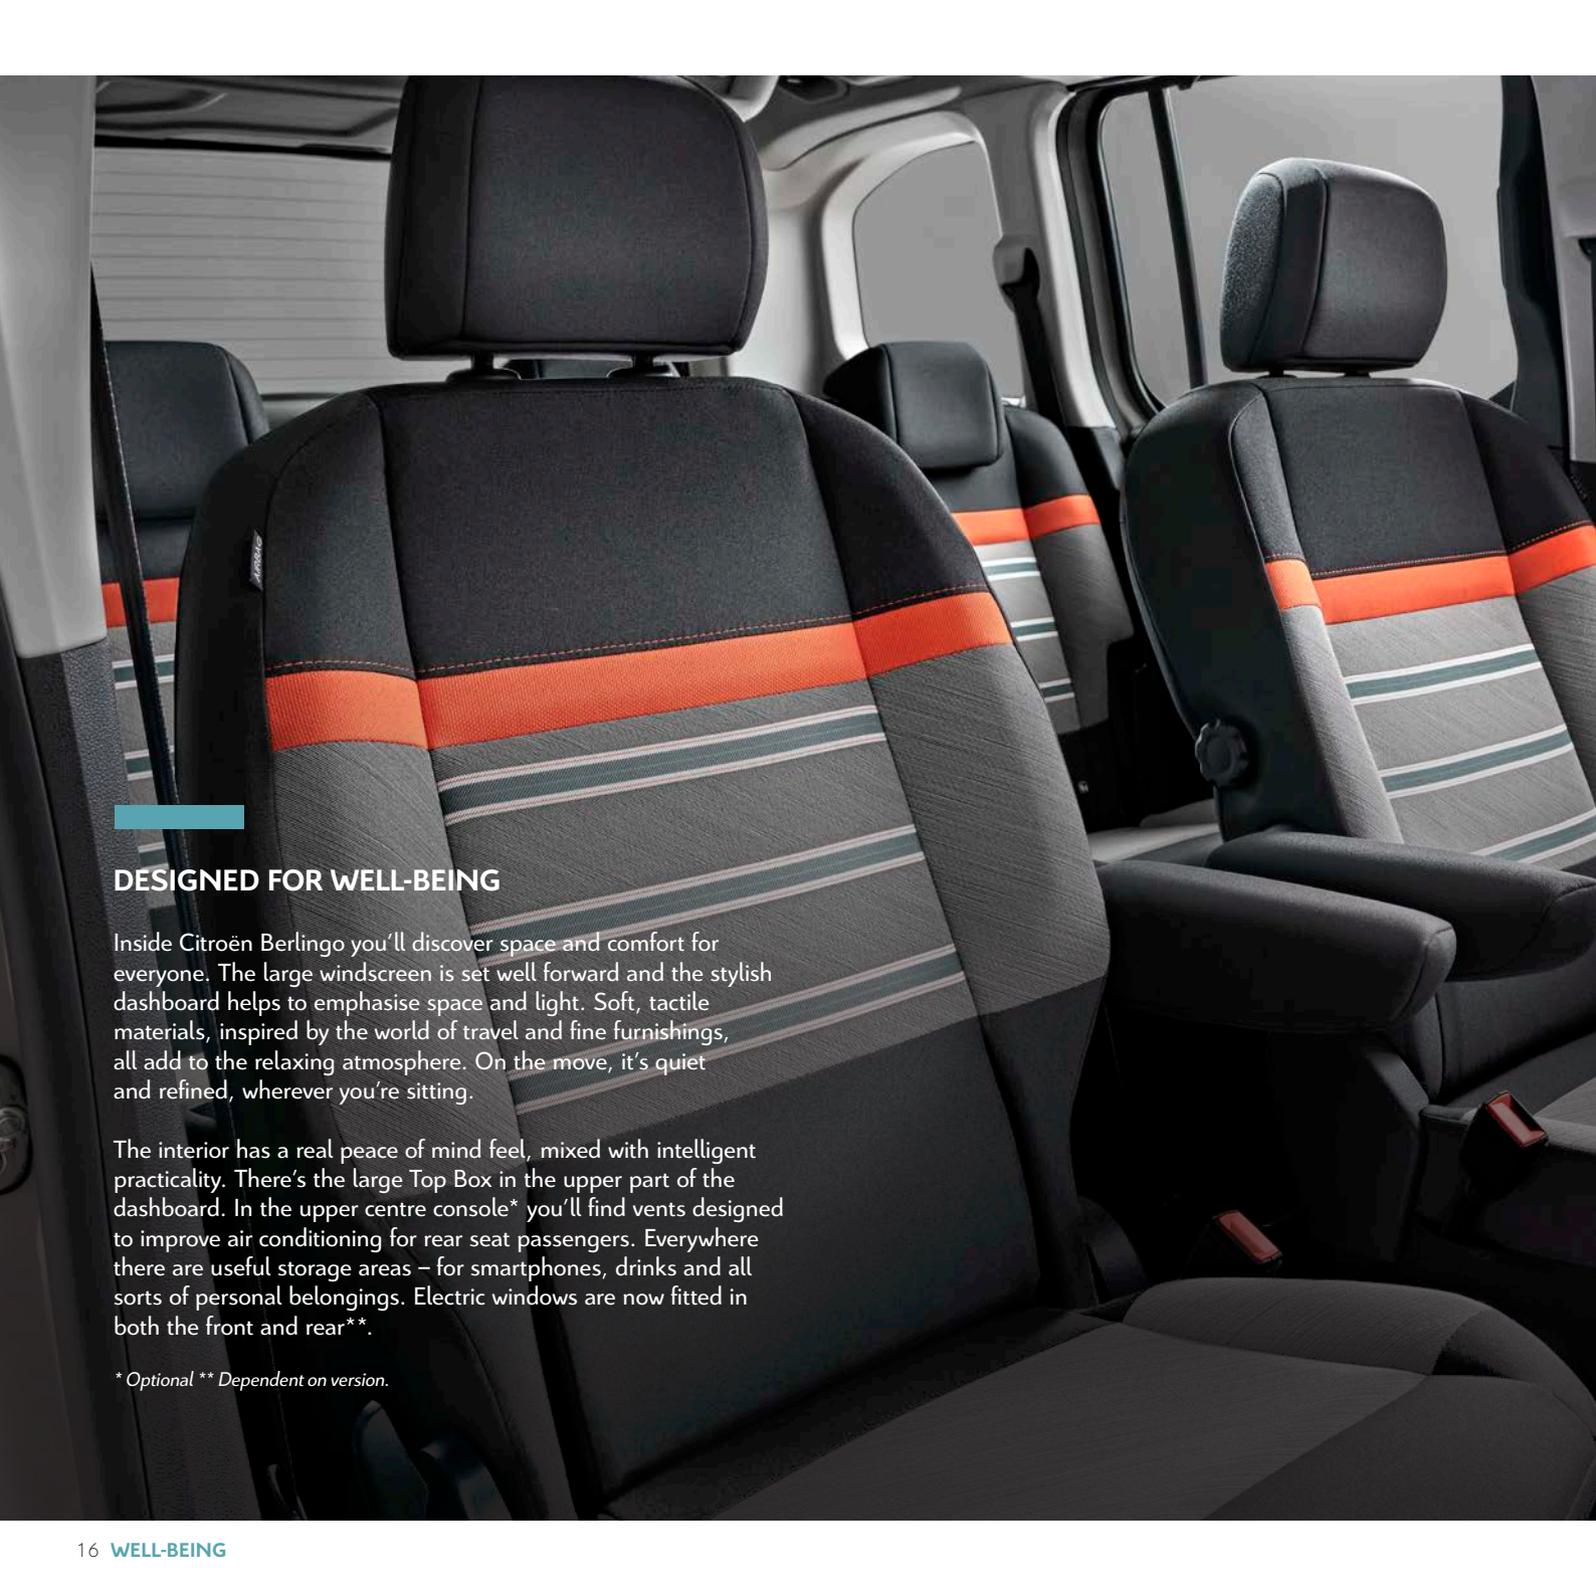

ULTIMATE SPACIOUSNESS

AN INVITING INTERIOR

New Citroën ë-Berlingo Electric has been ingeniously designed to offer exceptional comfort for all of its occupants. Inside offers a feeling of serenity and practicality.

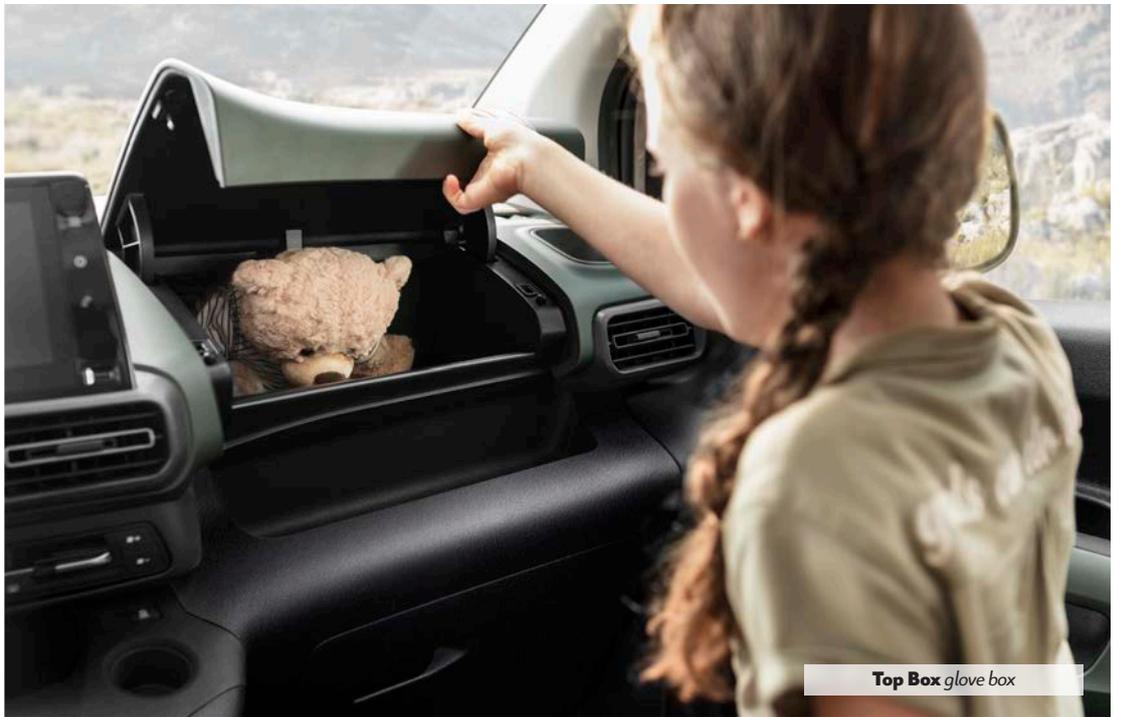

DESIGNED FOR WELL-BEING

Inside Citroën Berlingo you'll discover space and comfort for everyone. The large windscreen is set well forward and the stylish dashboard helps to emphasise space and light. Soft, tactile materials, inspired by the world of travel and fine furnishings, all add to the relaxing atmosphere. On the move, it's quiet and refined, wherever you're sitting.

The interior has a real peace of mind feel, mixed with intelligent practicality. There's the large Top Box in the upper part of the dashboard. In the upper centre console* you'll find vents designed to improve air conditioning for rear seat passengers. Everywhere there are useful storage areas – for smartphones, drinks and all sorts of personal belongings. Electric windows are now fitted in both the front and rear**.

** Optional ** Dependent on version.*

OPENING TAILGATE WINDOW

AND SLIDING DOORS

Practical inside and out, New Citroën ë-Berlingo Electric has first-class accessibility with its twin sliding side doors. The width of these doors has been optimised to maximize their practicality. To facilitate access to the boot and offer unique accessibility, the rear window can also be opened*.

* Dependent on version.

3 INDIVIDUAL REAR SEATS

ALL THE SAME SIZE

In the rear of Citroën ë-Berlingo, everyone enjoys equal comfort. This is because each individual seat* provides the same width and the same generous leg room. Whether you're travelling in the rear of a MWB or an LWB model, you can relax. For maximum practicality, each of the 3 rear seats* can be easily folded flat and they're all fitted with i-size ISOFIX points.

** Dependent on version.*

MODUTOP®

92 LITRES OF STORAGE WITH REMARKABLE LIGHTING

Emblematic of an MPV, the multifunction roof* of New Citroën ë-Berlingo Electric resumes the best of the two previous generations, while offering even more brightness. The Modutop® includes a roof box accessible from the rear seats or from the boot as well as a compartmentalised translucent arch.

The Modutop® provides more brightness with its large sunroof that is concealable thanks to an electric blind.

** Dependent on version.*

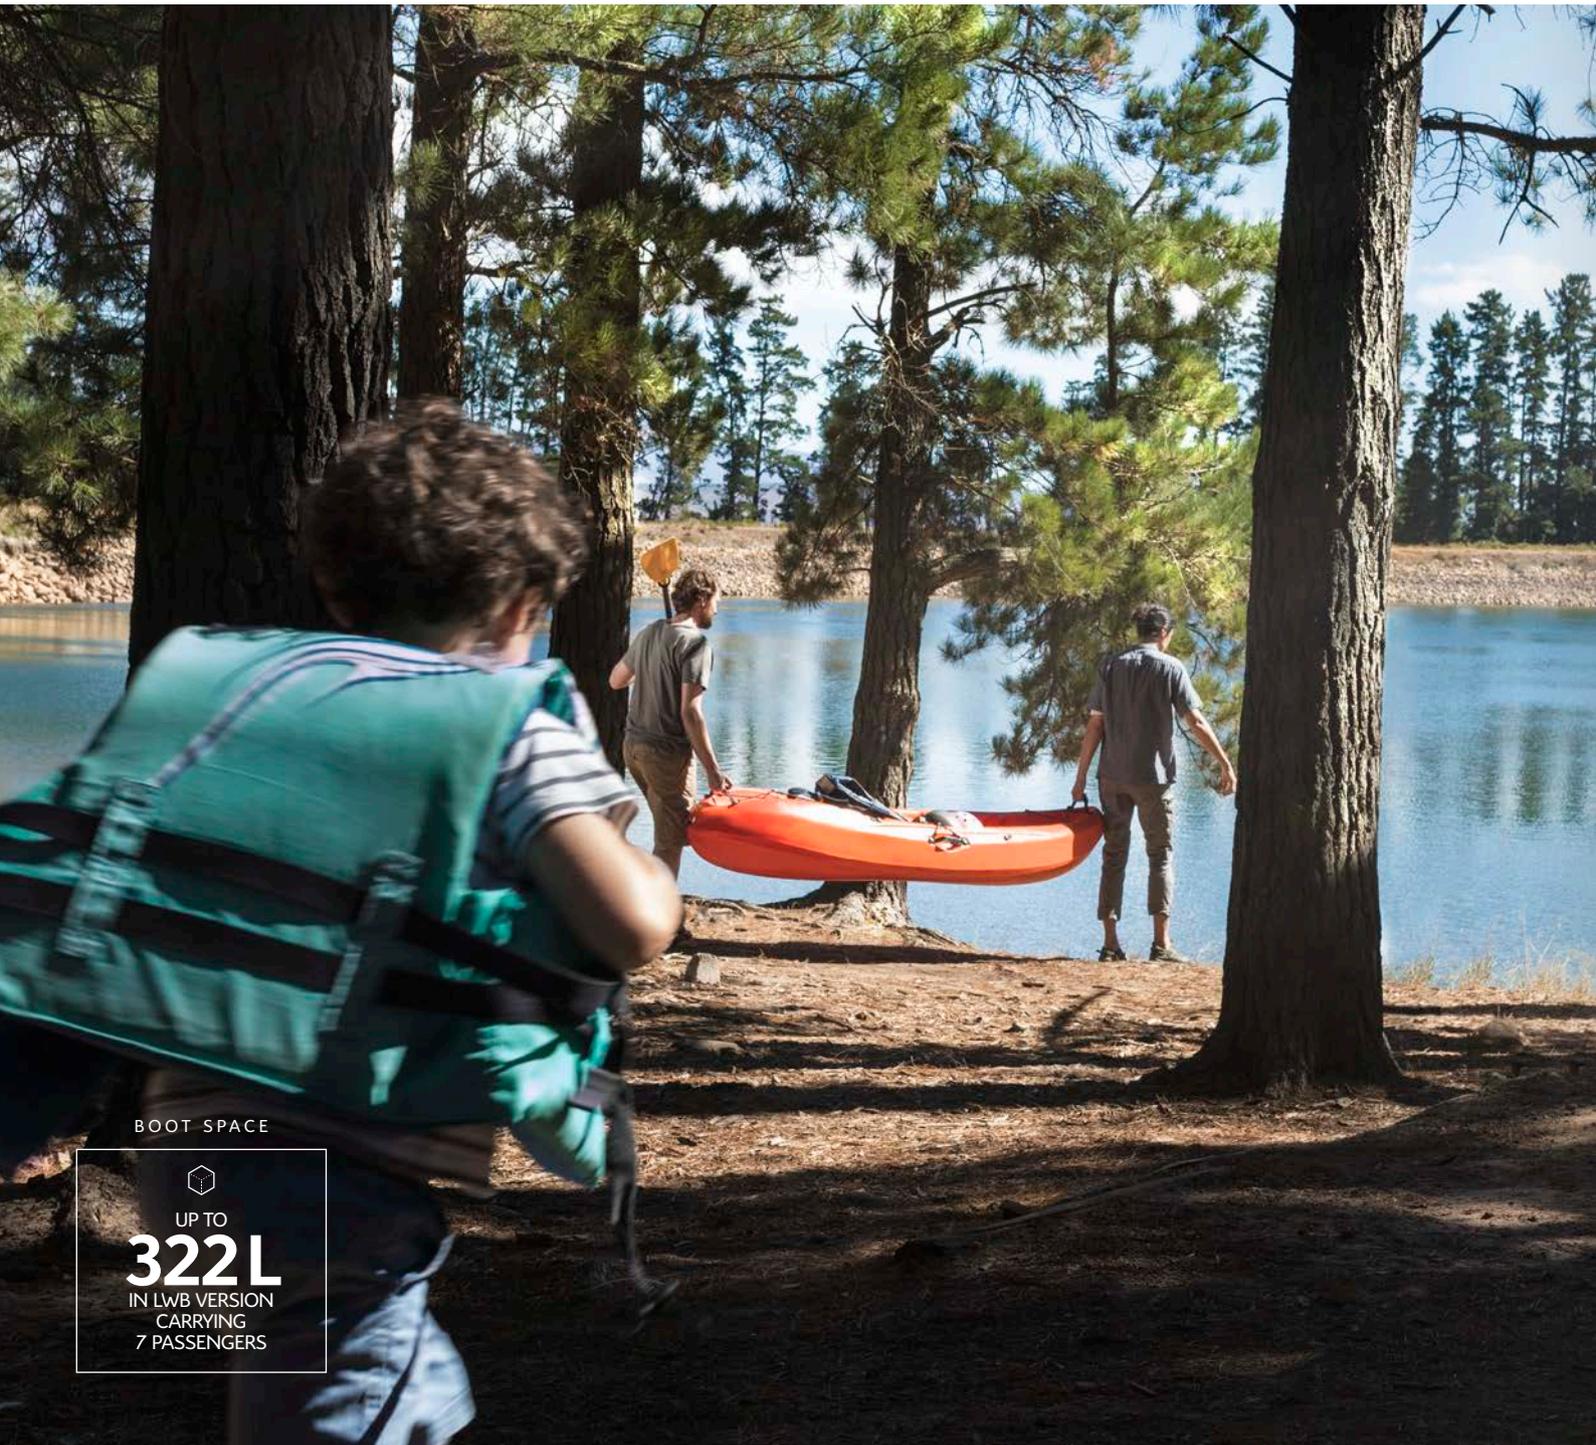

EXCEPTIONAL MODULARITY

UNCLUTTERED, MODULAR SPACE

All the rear seats fold flat, either separately or together. The result is a flat, usable load space. By folding the front passenger seat down* in LWB versions, you have up to 4,000 litres of room, with a load length of more than 3 metres. Neat practical touches are everywhere. The two position parcel shelf can be used to conceal your belongings at the traditional height, or it can be fixed at a lower point. This creates two usable boot compartments – especially as the luggage cover can support up to 25kg. You can easily reach this ‘upper deck’ through the opening rear tailgate screen. When you don’t need it, the luggage cover stows neatly behind the second row seats.

** Dependent on version.*

BOOT SPACE

UP TO

322L

IN LWB VERSION
CARRYING
7 PASSENGERS

2 LENGTHS 7 SEATS*

EVERYONE'S INVITED. EVERYONE'S COMFORTABLE

For ultimate versatility, Citroën Berlingo is now available in two body lengths, with MWB and new LWB versions. Both are designed to adapt quickly and easily to the demands of your everyday life. The LWB can seat up to 7 people in true comfort and also allows you to remove or slide the third row seats for that final touch of practicality.

** Optional.*

TECHNO- LOGY

FOR PEACE OF MIND AND CONNECTIVITY

Well in its time, New Citroën ë-Berlingo Electric has very practical daily connectivity features, such as a connected 3D navigation system with voice recognition. For even more serenity on board, Citroën ë-Berlingo Electric is equipped with Citroën Connect Box*.

** Dependent on version.*

8" TOUCH-SCREEN

FOR CONNECTIVITY

Resolutely modern, New Citroën ë-Berlingo Electric is equipped with an 8" capacitive touchscreen to zoom at your fingertips like on your smartphone. The screen controls many functions of the car, such as driving aids and radio. Thanks to My Citroën Play* (via Apple CarPlay® and Android Auto™), you can connect your smartphone and control applications compatible with driving from the touchscreen in complete safety.

** Dependent on version.*

CONNECTED NAVIGATION

The connected 3D* navigation system, My Citroën Drive, is associated with services such as TomTom Traffic to offer real-time traffic information, the signaling of danger zones as well as the location and the prices of gas stations and parking lots. To this are added weather information and local search for points of interest.

** Dependent on version, may require a free of charge subscription.*

ELECTRIC POWER: SIMPLE TO USE

HOVER TO SEE MORE 

New Citroën ë-Berlingo 100% electric is simple to charge without costing the earth. Three types of battery charging are possible, accompanied by a complete range of practical services. The charging flap is located on the rear left wing and incorporates an LED light sequence which shows the progress of the charging process.

ELECTRIC INFORMATION AT YOUR FINGERTIPS

New Citroën ë-Berlingo electric has been designed with a singular priority: to make everyday use easy. Instruments continuously display battery charge status and show the power consumption of on-board electrical equipment such as the heating and air conditioning.

An 8" touchscreen also provides a range of information including an "Energy" section which groups together all of the information dedicated to the special electrical features of New Citroën ë-Berlingo: energy flows, battery charge level, your consumption statistics and details of deferred charging..

Energy flow: view the operation of the electrical technology.

Statistics: know your electrical consumption and optimise your driving.

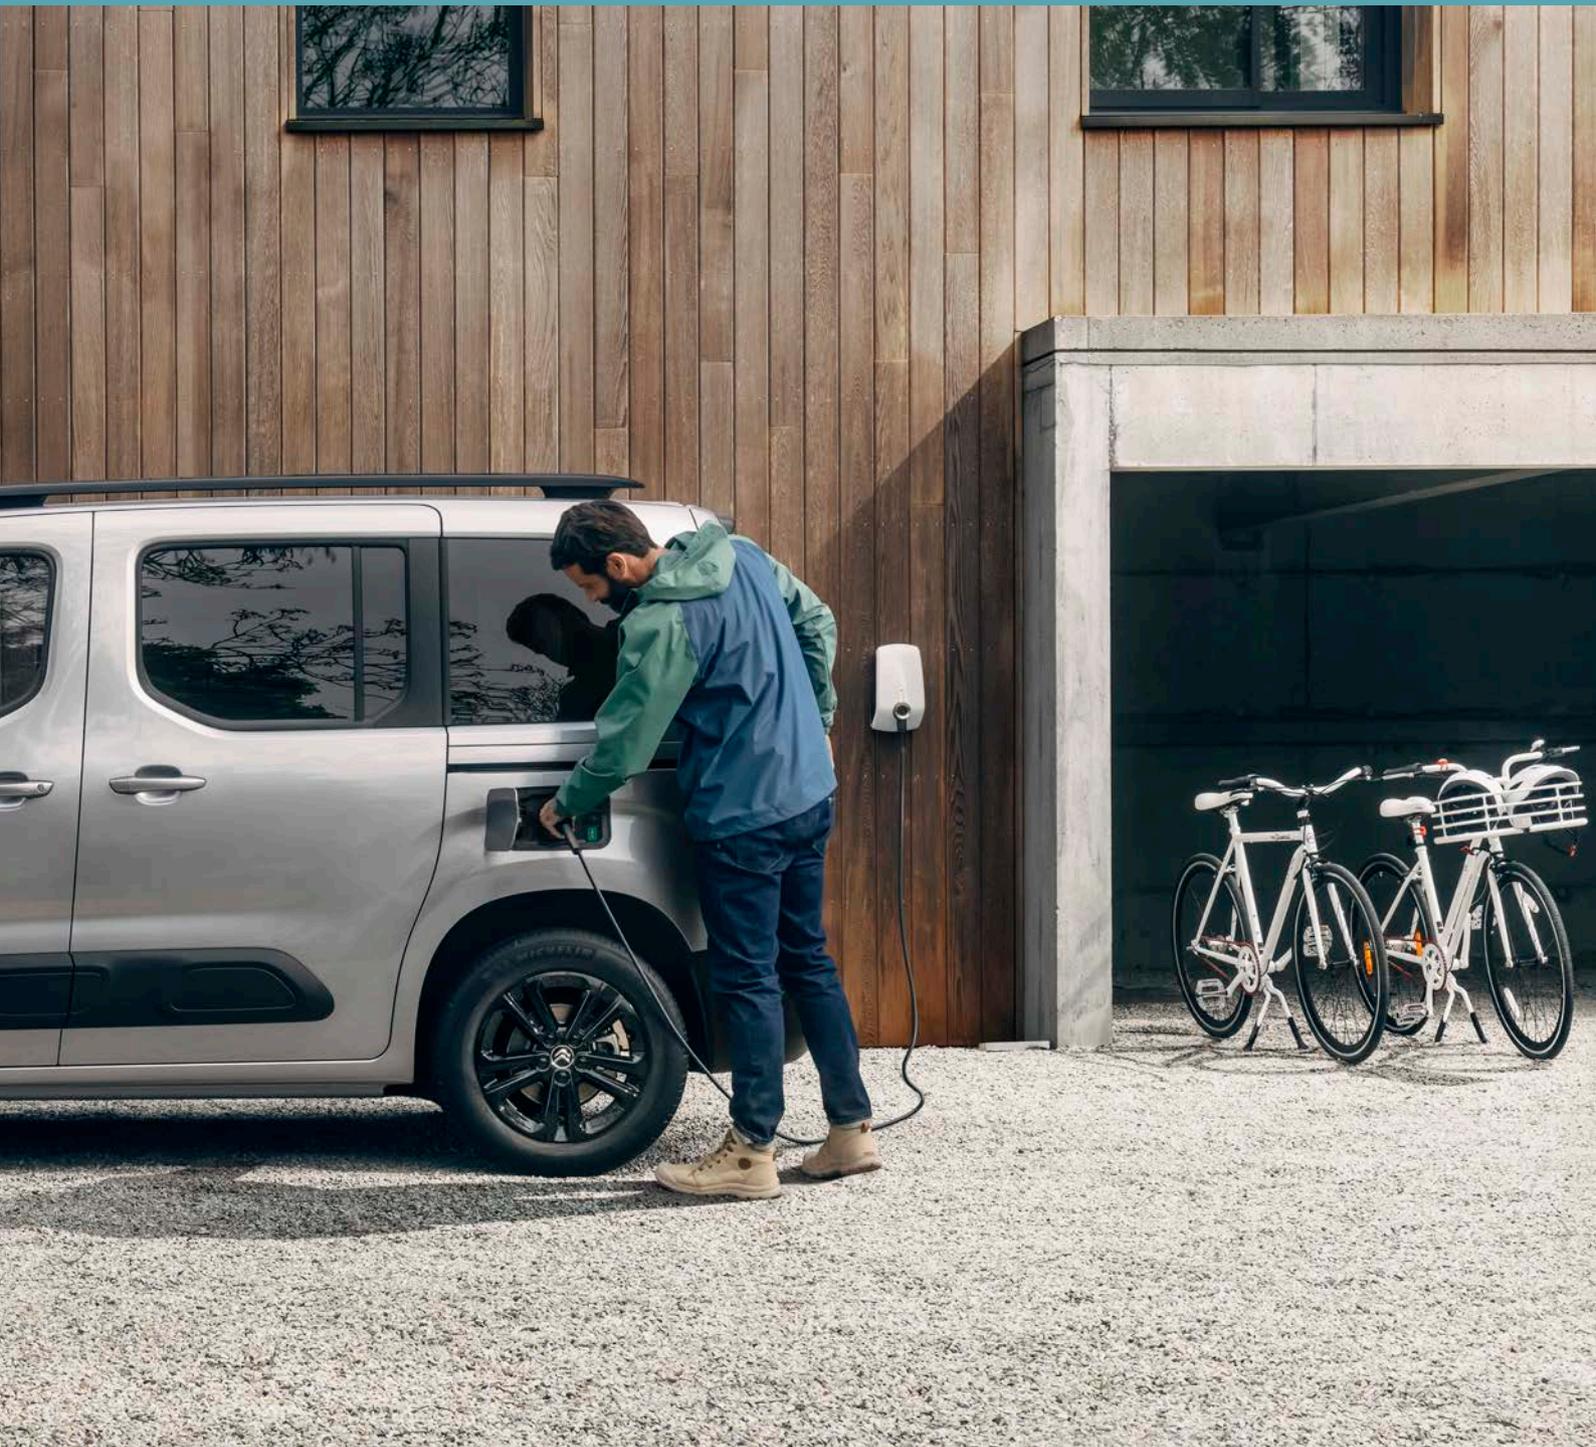

Deferred charging: programme charging to start at the time of your choice.

TYPES OF CHARGING AVAILABLE

Of the three ways to charge New Citroën ë-Berlingo Electric, the fastest are the recharges carried out on a Wall Box or at a public terminal. The Wall Box can be installed at your home and allows charging from 0 to 100% in 7h30m. On a public terminal of 100 kW, the battery is recharged to 80% in 30 minutes.
